

Bicycle & Pedestrian Committee Vision, Mission, and Goals

Vision

Residents and visitors in Bethlehem live and work in a sustainable community that has a diversity of transportation options, and they routinely choose bicycling and walking for safe and efficient transportation and as a healthy option for recreation.

Mission

The Bethlehem Bicycle and Pedestrian Committee is a resource that effectively uses a 5E approach (Engineering, Education & Enforcement, and Engagement & Encouragement) to advise the Town, educate the community, and advocate for opportunities to improve mobility and connectivity for bicyclists and pedestrians.

Goals

Engineering

Bethlehem offers safe and efficient infrastructure to ensure accessibility, connectivity, and mobility for bicyclists and pedestrians

Education & Enforcement

The Bethlehem community is aware of and actively exhibits safe bicycling, walking, and driving behavior. A share the road approach is respected among all travel modes and reinforced through enforcement of traffic laws.

Engagement & Encouragement

The Bethlehem community is utilizing its bicycle and pedestrian network to the full extent and is empowered to drive new programs in the town

All potential Committee tasks and Committee activities would be undertaken only with the understanding that they would be purely recommendations to the Town Board and the Town Board would have any final input and decisions about any potential Town actions.
