

Discovery Day Camp Covid-19 Response Plan

Our Goal

Prevent the spread of COVID-19 by maintaining healthy operations that protect our campers, staff, and community. The health, safety, and well-being of every camper is our highest priority.

As the information surrounding COVID-19 is constantly changing and evolving, this response plan is subject to change. By following best practices published by the [CDC](#) and [American Camp Association](#), we intend to provide a safe space that nurtures friendship and community, take a much needed sabbatical from electronics, and enjoy the outdoors, safely.

What is Discovery Day Camp doing to help prevent the spread?

At Camp, we are diligently following all local and federal recommendations to promote healthy behaviors, environments, and operations.

Here's what you can expect from us!

 We will encourage unvaccinated campers to wear face coverings when they cannot maintain social distance, but it is not a requirement

What can you do to help prevent the spread?

Here's what we expect of you.

1. [Please watch this 2 minute video](#)
2. [Read how a healthy camp begins and ends at home](#)
